Dear John Hubby

As you would be aware, one of the agreed roles of the National Community Services Information Management Group (NCSIMG) is to provide advice to the Community and Disability Services Ministers' Advisory Council (CDSMAC) on national community services information development priorities and funding proposals. I am writing to you regarding budget bid proposals for information development activities that the Australasian Juvenile Justice Administrators is considering for submission to CDSMAC as part of the 2012-13 funding cycle.

The NCSIMG would like to consider all proposals under consideration by all committees for information development activities in order to review them and to provide advice to CDSMAC on priorities. Could you provide your priorities and funding proposals to the NCSIMG Secretariat by 9 January 2012.

At the NCSIMG meeting held 29 September 2011 members discussed the work being done on National Data Linkage. Members agreed that a broader consultation is required with CDSMAC subcommittees to request information on their priorities around the National Data linkage to the research agenda. Could you provide a summary on priorities around research question that need to be answered to the NCSIMG Secretariat by 9 January 2012.

Your assistance in this matter would be greatly appreciated.

Yours sincerely,

NCSIMG Secretariat on behalf of Jim Moore NCSIMG Chair
